Proposed Amendments

After discussions with stakeholders, I am proposing the following amendments (I have redrafted or deleted certain language in the ordinance to be consistent with these proposed amendments):

1. The title of the ordinance has been slightly changed.
2. Section 1.4 eliminated the exemption from the ordinance businesses under 2,000 feet for two reasons: 1) it creates a burden of mandating the city create an inventory of applicable businesses 2) Fairness: it should apply equally and even small businesses contribute to the issue.
3. Sections 21. and 2.3: the reusable bag definition has gone from 3 mils to 1.5 mils. This thickness is consistent with the California plastic bag ban state law, and gives business owners more flexibility with regard to substitutes.
4. Section 3.1: amended as per the recommendations of Solicitor Seewald.
5. Section 3.2: deleted.
6. Section 4.3: deleted.
7. Date of effect, Section 6.1, changed from November 1st, 2016 to January 1st, 2016.
8. References to "City" have been changed to the "Board of Health" in section 7.
9. Section 7.1: hardship deferment periods have gone from 1 year to 6 months.

These proposed amendments will be presented at the Committee on Economic and Community Development, Housing and Land Use tonight.

Boards and Committees: Public Shade Tree Commission

Please list "other" board or committee of interest: Conservation Commission

What skills and experience will you bring to this committee assignment?: Dear Mayor Narkewicz

I am delighted to learn about Northampton's newly created Public Shade Tree Commission, and appreciate your consideration of me for this seven-member commission.

In addition to my great passion for the preservation, protection, and promotion of trees – in forested as well as urban settings – I have fifteen years of relevant work experience as an environmental professional, as well as a master's degree in Environmental Studies with a concentration in Conservation Biology.

A few positions I have held that demonstrate my competency include coordinator of the NOFA/Mass organic land care program, park interpreter as well as a regional interpretive coordinator for DCR, and conservation easement steward at the Harris Center for Conservation Education. I also completed a Tree Steward Training offered by DCR.

My board and committee experience includes serving a three-year term on the governing board of Arlington Street Church (Unitarian Universalist), being selected as a delegate for the Cambridge Climate Emergency Congress (that the Mayor of Cambridge convened by in 2009-2010), and serving as the student representative on the President's Council at Antioch University New England (AUNE).

Volunteer community service is very important to me. It was therefore quite an honor to receive a Keene Elm City Rotary Scholarship for "service above self" while I was in graduate school. Currently, I am a team leader for Wilderness Heals (a three-day pledge hike in the White Mountains to benefit the Elizabeth Stone House, a homeless shelter) and a training mentor for the Climate Reality Leadership Corps.

While a graduate student at AUNE, I was trained/mentored by Tom Wessels (author of Reading the Forested Landscape), and took courses such as Ecological Dynamics of Landscape, New England Flora; and Climate Change Resilience, Adaptation, and Mitigation. One of the scholarships I received during graduate school was the Ginsberg-Wessels Fellowship for "academic excellence and true leadership" (awarded to one student each year by the Environmental Studies faculty).

Some of my graduate work included semester-long projects that resulted in reports to the City of Keene, including “A Climate Resilient Community: Assessing Keene’s Progress in Adapting to Climate Change” (a 55-page report for City of Keene Cities for Climate Protection committee) and “Identifying Existing Community Gardens and the Best Places for New Sites in Keene, NH” (a GIS mapping project and poster created for AUNE’s Sustainable Food Systems course and the Keene Agriculture Commission). My capstone project was “Building Capacity for Watershed Restoration at the Grassroots Level in the Northeastern United States” (which resulted in a 63-page report for Manomet Center for Conservation Sciences).

I feel that developing and demonstrating leadership skills is an important part of our individual and collective response to a world in crisis. Receiving the President’s Distinguished Leadership Award in May, which was awarded to one student during Antioch University New England’s commencement, was deeply meaningful to me. As a new resident to Northampton, I would like to offer my community service and leadership skills to this city.

It would truly be a pleasure to work with you and other Northampton citizens in the service of promoting trees in this beautiful city. I hope that the information on this application helps you get a picture of my passion, skills, commitment, and service-mindedness, which I would gladly apply to this tree commission.
