Mass DOR / Division of Local Services on Rotating Outside Auditors

O'Donnell - 9/5/15

DLS Fact Sheet:

“It happens that municipalities will rely on one auditor or audit firm for multiple years. In fact, the Government Finance Officers Association (GFOA) recommends that communities engage the same auditor by entering into multi-year agreements, or a series of one-year contracts, for a term of at least five years. A multi-year agreement allows for greater continuity and enables a new auditor to spread initial start-up costs over multiple years, potentially reducing costs in the initial years. However, after this term, GFOA recommends a full competitive selection process and a rotation of auditors after each multi-year agreement, provided there is adequate competition among qualified auditors. Contracting with a new audit firm can not only bring a fresh perspective, but reflects good practice. **In general, communities are encouraged to re-advertise for auditing services every five to eight years.** GFOA also acknowledges circumstances or locations where there is a lack of competition among fully qualified auditors. In such cases, the participation of the current auditors is acceptable, assuming their past performance has been satisfactory and has conformed to industry standards.”

Financial Management Review for the City of Taunton / September 2013:

“Taunton has contracted with KPMG to conduct annual audits for more than a decade. While staying with one auditor over multiple years promotes continuity and minimizes disruption of everyday activities, the Government Finance Officers Association recommends that outside auditors be changed every five to eight years. Cycling new auditors provides fresh perspective and fosters long-term independence. We therefore also advise Taunton to solicit proposals from multiple firms for the next fiscal year.”

Financial Management Review for the Town of Pembroke / December 2013:

“We recommend that the town advertise for auditing services every five-to-eight years. According to DOR’s records, audits conducted since FY1985 have been completed by Raymond Kasperowicz CPA. As a routine practice, we comment on the number of years that a municipality might contract with or rely on the same auditor. The Government Finance Officers Association (GFOA) recommends that communities enter into multi-year agreements with auditors, or a series of one- year contracts, for a term of five-to-eight years. A multi-year agreement allows for greater continuity and enables a new auditor to spread initial start-up costs over multiple years, potentially reducing costs in the initial years. However, after this term, GFOA recommends a full competitive selection process. If auditors are retained over many years, the principal in charge of the town’s account should periodically change. Contracting with a new audit firm can not only bring a fresh perspective, but reflects good practice.”

CITY OF NORTHAMPTON
REQUEST FOR PROPOSALS
FOR
AUDITING SERVICES

The City of Northampton, Massachusetts invites qualified, independent public accountants, licensed to practice in the Commonwealth of Massachusetts, to submit proposals to conduct an audit of its financial accounts and records in accordance with the specifications listed below.

I. INFORMATION FURNISHED TO PROPOSER

A. GENERAL INFORMATION

1. Per the City's Charter, "*The city council shall annually provide for an outside audit of the books and accounts of the city to be conducted by a certified public accountant or firm of certified public accountants, which has no personal interest direct or indirect, in the fiscal affairs of the city or any of its officers. The mayor shall annually provide to the city council a sum of money sufficient to the estimated cost of conducting the audit as presented to the mayor, in writing, by the city council. The award of a contract audit shall be made by the city council on or before September 15 of each year. The clerk of the council shall coordinate the work of the individual or firm selected. The report of the audit shall be filed in final form with the city council not later than March 1 in the year following its award.*".
2. The city government consists of the following elected positions: mayor, city council, city clerk, public school committee, and board of trustees for the Smith Vocational and Agricultural School.

As chief executive officer, the Mayor appoints, subject to city council approval, all other principal executive officers of the city. The Mayor is responsible for the administration of the fiscal and other affairs of the city with the exception of local school affairs, which are administered by the School Committee.

The City Council consists of nine members; seven ward councilors and two at-large councilors each serving a two year term. The city is divided into seven wards with a roughly equal number of voters in each ward. The city council is the legislative body for the city and is responsible for adopting the budget as prepared by the mayor and for adopting city ordinances.

The City provides general governmental services including police and fire protection, water and sewer services, including a water treatment facility, wastewater treatment facility, street maintenance, parks, recreational facilities and education for grades kindergarten through twelve. The current work force of the City is approximately 990 FTEs equivalent to approx. 1,100 employees.

The City provides for two school districts and education is the single largest spending category within the budget. Northampton Public Schools consist of four elementary level schools for grades kindergarten through grade 5; a middle school for grades 6 – 8 and a high school for grades 9 – 12. The city also has a funding commitment for Smith Vocational and Agricultural High School located within city limits. The financial and organizational structure of Smith Vocational presents unique challenges for the city. Like other vocational schools in the state, SVAHS provides educational services to surrounding communities; however, unlike other vocational schools, the monies paid to the school are derived from state Chapter 70 formulas and tuition from sending communities.

The Northampton Public School Committee members consists of two (2) at-large school committee members, seven (7) ward school committee members, and the Mayor who serves as the committee's chair. The School Committee has exclusive jurisdiction over the city's public school system and appoints a superintendent to administer the day-to-day affairs of the school system.

The Smith Vocational School is governed by a Board of Trustees consisting of three elected trustees, the mayor, and the city public school system superintendent.

Additional information regarding the City is also available on the City's website www.northamptonma.gov.
