10/13/2015 - Minutes

1. Meeting Called To Order

At 5:05 pm Councilor Murphy called the meeting to order.

A. Announcement Of Audio/Video Recording Of Meeting

Councilor Murphy announced that the meeting would be video taped.

B. Members Present/Absent

Absent: Councilor Carney

Present: Councilors Murphy and O'Donnell

2. 5:05 P.M. Public Hearing Regarding Zoning Standards For Significant Trees

Motion to Open: Councilor O'Donnell; Second: Councilor Murphy; Approved on a voice vote of 2 Yes, 0 No, 1 Absent (Councilor Carney).

Sr. Land Planner Carolyn Misch shared the changes made to the ordinance; there is a slight addition to the ordinance then that which was sent to the committee last week. This change was introduced in the Planning Board Public Hearing. An amendment was made to add a section regarding removal of a certain size tree. The objective is to keep an eye out for when specific trees are removed, and hopefully replace those trees with ones that will encourage preservation of shade coverage.

The Ordinance defines certain terms related to trees & creates a set of criteria if a development project is moving forward that may include the removal of trees.

The requirements of the ordinance will not apply to trees located on property under the jurisdiction of the Conservation Commission, City owned trees, Trees associated with emergency projects, and trees that are diseased or are hazardous.

When removing a significant tree, specific requirements must be met. These are specified in the Ordinance. If the tree cannot be replaced, there is an option to pay into a fund so that a tree can be replaced as close to the removed tree as possible. The account where the funds will be kept has not yet been established. The amount will be determined based on the cost of the tree plus the cost to plant and

maintain the tree for 24 months.

Certain other requirements address protecting significant trees during construction. The requirements will be established based on the type of the tree and how big it is. On private property where no work is planned, this ordinance will not apply.

Councilor O'Donnell reviewed many errors in the document and asked that appropriate changes be made.

Councilor Murphy noted problems for continuity of ownership. He feels that leaving it open ended may handicap a new owner of any property if the previous owner took down trees and didn't replace trees as required.

Revolving fund will be dealt with by the Finance Committee.

Motion to close the Public Hearing made By: Councilor O'Donnell

This item will be continued to the November meeting as the committee has asked that the issue of new owner responsibility be clarified. Councilor Murphy asked that the language regarding the responsibilities of new owners be defined when a former owner removed trees on property that would be regulated by this ordinance.

Motion to close the Public Hearing made By: Councilor O'Donnell; Second: Councilor Murphy The motion was approved on a voice vote of 2 Yes, 0 No, 1 Absent (Councilor Carney).

3. 5:15 P.M. Public Hearing Regarding Zoning Standards For Rural Residential And Suburban Residential Areas

Motion to Open: Councilor O'Donnell; Second: Murphy; the motion was approved on a voice vote of 2 yes, 0 No, 1 Absent (Councilor Carney).

Carolyn Misch went through the changes that are being introduced to both Ordinances. Essentially, the modifications update the layout for the suburban residential district, eliminate nursing care/assisted living allowances, remove junk car allowances for businesses and modify setbacks for ground mounted photovoltaic systems. Lot size requirements have been simplified. The residential incentive overlay section has been removed. Community centers have been removed from the RR specifications; they now require special permit.

Councilor O'Donnell cited two typographical errors: First, it appears that under the Site Plan Approval section the information pertaining to Detached Accessory Dwelling Unit is duplicated. Second, under Special Permit Approval required for the following uses.....there is a second "section" symbol in the line that deals with "New Telecommunications facility".

Motion to close the public hearing made by Councilor O'Donnell; Councilor Murphy seconded the motion. The motion was approved on a voice vote of 2 Yes, 0 No, 1 Absent (Councilor Murphy).

Councilor O'Donnell moved to return the ordinances back to City Council with a positive recommendation; Councilor Murphy seconded the motion. The motion was approved on a voice vote of 2 Yes, 0 No, 1 Absent (Councilor Carney).

4. Public Comment

None

5. Approve Minutes Of The Previous Meeting

Councilor O'Donnell moved to approve the minutes of September 14, 2015; Councilor Murphy seconded the motion. The motion was approved on a voice vote of 2 Yes, 0 No, 1 Absent (councilor Carney).

6. Orders And Ordinances For Review

A. 15.492 Ordinance Pertaining To Rural Residential Zoning

See notes under the Public Hearing above.

B. 15.493 Ordinance Pertaining To Suburban Residential Zoning

See notes under the Public Hearing section above.

C. 15.377 Ordinance Pertaining To Zoning For Significant Trees

See notes under Public Hearing above.

D. 15.501 Ordinance Pertaining To Bike Lanes On N. Elm Street

The lines that establish the bike lanes on North Elm St. and Prospect St. have already been painted. This measure simply codifies the lane locations.

Councilor O'Donnell moved to return the Ordinance back to City Council with a positive recommendation; Councilor Murphy seconded the motion. The motion was approved on a voice vote of 2 Yes, 0 No, 1 Absent (Councilor Carney).

E. 15.502 Ordinance Pertaining To South Street

Councilor O'Donnell explained that one space in front of a bus stop near Columbus Avenue needs to be eliminated - it creates a visibility issue when a car is parked in that location.

Councilor O'Donnell moved to amend the Ordinance based on input from the Department of Public Works. The space will be from Columbus Ave. to a point 65 feet southerly.

Councilor O'Donnell moved to send back to City Council with a positive recommendation as amended; Councilor Murphy seconded the motion. The motion was approved on a voice vote of 2 Yes, 0 No, 1 Absent (Councilor Carney).

7. Appointments For Committee Approval

None

8. New Business

None

9. Adjourn

At 6:10 pm Councilor O'Donnell moved to adjourn the meeting; Councilor Murphy seconded the motion. The motion was approved on a voice vote of 2 Yes, 0 No, 1 Absent (Councilor Carney).

**City of Northampton
MASSACHUSETTS**

In the Year Two Thousand Fifteen

Upon the Recommendation of City Councilor Jesse M. Adams and City Councilor Ryan R. O'Donnell

ORDINANCE

An Ordinance of the City of Northampton, Massachusetts, providing that the Code of Ordinances, City of Northampton, Massachusetts, be amended by amending section 350-2.1 and adding section 350-12.3 of said code; providing for standards for significant trees.

Be it ordained by the City Council of the City of Northampton, in City Council assembled, as follows:

Section 1.

That § 350-2.1 be amended by inserting the following definitions in alphabetical order:

CALIPER DIAMETER

The diameter of a tree trunk of a new tree measured at 12 inches above the ground.

CRITICAL ROOT ZONE (CRZ)

The critical root zone (also known as essential root zone) is the portion of the diameter of a tree's root system that is the minimum necessary to maintain the stability and vitality of the tree. For the purposes of this section the critical root zone shall be calculated by using the following formula: the Diameter at Breast Height in inches multiplied by 24. For example, for a tree with a trunk diameter of 10 inches, the critical root zone would have a diameter of 20 feet.

DIAMETER AT BREAST HEIGHT (DBH)

The diameter of a tree trunk measured at 4.5 feet above the ground.

DRIP LINE

A circular area around a tree encompassing the tips of its outermost branches from which rainwater tends to drip.

SIGNIFICANT TREES

Any tree of 20 inches diameter breast height (DBH) or larger or any other tree specifically identified as a specimen tree on any Tree Inventory Plan adopted by the Planning Board.

Section 2.

That the following section be added to the Code of Ordinances after § 350-12.2:

§ 350-12.3 Significant Trees

- A. Legislative findings and intent. The City of Northampton finds that Significant Trees enhance air quality, reduce noise, reduce energy costs, create habitat, enhance aesthetics and property values, and benefit city neighborhoods. The intent of this section is to encourage the preservation and protection of Significant Trees during development and redevelopment projects that require a site plan approval, special permit, comprehensive permit, finding, or variance (collectively “zoning relief”).
- B. No person shall remove any Significant Tree associated with any site plan approval or any other zoning relief without a site plan approval from the Planning Board (if a site plan approval is otherwise required), or an administrative site plan approval from the Office of Planning and Sustainability if no site plan is otherwise required.
- C. The removal of any Significant Tree after July 1, 2015 or within eighteen (18) months immediately prior to such a site plan or zoning relief, whichever is later, shall be subject to this section.
- D. The requirements of this section shall not apply to:
1. Trees located on property under the jurisdiction of the Conservation Commission.
 2. City-owned Public Shade Trees pursuant to M.G.L. Chapter 87.
 3. Trees associated with emergency projects necessary for public safety, health and welfare as determined by the Building Commissioner, Director of Planning and Sustainability, or Director of Public Works.
 4. Trees that are hazardous due to disease, age, or shallow roots, as determined and confirmed in writing by a certified arborist and reviewed by the City’s Tree Warden.
- E. Any person removing a Significant Tree that is subject to this section shall satisfy either of the following conditions:
1. Provide for replacement trees according to the following standards:
 - i. Replacement trees shall be non-invasive deciduous trees (as defined by the Planning Board) on or off-site, as approved as part of a site plan or administrative site plan, so that for each inch of Diameter at Breast Height of the removed trees there shall be no less than one-half inch of Caliper Diameter of replacement trees.
 - ii. Replacement trees shall have a minimum of two inch Caliper Diameter.
 - iii. Replacement trees shall be maintained in good health a minimum of 24 months after they are planted as confirmed by the City’s Tree Warden. If replacement trees are not found to be in “good health” as determined by the Tree Warden, the trees shall be replaced as directed by the Warden.
 - iv. Replacement trees shall either be Approved Street Tree Species as defined in Section 290-38 or other trees that are hardy in all of the following USDA Plant

Hardiness Zones: 6a, 6b, 7a, and 7b.

2. Pay funds to the city for a Tree Replacement Fund account that, in the city's estimate, will allow the city to plant new Public Shade Trees on city property in accordance with the above formula.

F. Protection of Significant Trees during Construction.

1. Any Significant Trees to be retained and any replacement trees on property where demolition and/or construction activity is planned shall be protected in an area shown on the approved site plan and should follow American National Standards Institute (ANSI) A300 standards for tree care practices.
2. The protected area shall exceed both the critical root zone and drip-line of each _____ Significant Tree unless the Planning Board approves an alternate maintenance and tree protection plan submitted by a certified arborist.
3. A certified arborist shall submit a written letter to the Building Commissioner, Tree Warden and Office of Planning and Sustainability certifying that such area has been so protected in accordance with the site plan.

G. Recordkeeping. The Department of Planning and Sustainability shall collect annual totals of the number and Diameter at Breast Height measurements of Significant Trees preserved and replaced.

An Ordinance of the City of Northampton, Massachusetts, providing that the Code of Ordinances, City of Northampton, Massachusetts, be amended by revising section 156-5C of said code; to ensure that structures exempt from review minimally maintain the existing amount of glass on street facing façades.

ORDINANCE

An Ordinance of the City of Northampton, Massachusetts. Be it ordained by the City Council of the City of Northampton, in City Council assembled, as follows:

SECTION 1

That §156-5C of the Code of Ordinances be amended as follows:

C The following elements are specifically exempt from review by the Committee. The Building Commissioner shall issue permits for this work only after determining that the project is exempt:

(14) Effective March 1, 2005, alteration or renovation, but not expansion or demolition, of any anomaly or transitional residential building, based on its classification on January 1, 2005 if developed in accordance with the Design Guidelines and so long as the change does not reduce the glazed area of any street-facing façade.

ORDINANCE

An Ordinance of the City of Northampton, Massachusetts, providing that the Code of Ordinances, City of Northampton, Massachusetts, be amended by adding a section **§285-51** of said code; providing for the purpose of the city creating the following Complete Streets Policy.

Article III Streets and Sidewalks Policies

§285-51 Complete Streets Policy

- A. The city's Complete Street policy ensures that pedestrian, bicycle and transit facilities are fully integrated into a safe and efficient transportation system. Specifically, it is city policy to:
- (1) Safely accommodate pedestrians, bicycles and, when appropriate, transit facilities on every surface street.
 - (2) Minimize and mitigate environmental impacts for all transportation projects.
 - (3) Encourage alternatives to single-occupancy vehicles.
 - (4) Improve utilization of intelligent transportation systems for transit priority and potentially other opportunities.
 - (5) Ensure sidewalks on all new and reconstructed streets, except alleys, shared streets.
 - (6) Design new and reconstructed streets to promote green infrastructure (e.g., vegetated swales and rain gardens) when feasible within existing rights-of-way and without conflicting with transportation needs and street trees.
 - (7) Ensure City-reconstructed streets are consistent with subdivision regulations (e.g., sidewalk and curb materials, dimensions) to the extent existing layouts and resources allow.
 - (8) Calm traffic and interconnect public streets to preserve pedestrian safety and encourage pedestrian activity in neighborhoods and villages and prohibit gated private streets.
 - (9) Fully develop the bicycle network so that 75% of households are within ½ mile of a multiuse trail and 85% of households are within ½ mile of a bicycle lanes or trail.

- (10) Avoid street widening and additional lanes that will induce new traffic.
- (11) Ensure the design and construction of all new, reconstructed, reclaimed streets, including mill-and-overlay projects, incorporates appropriate traffic calming measures, accessibility improvements, and bicycle and pedestrian facilities. Mill-and-overlay projects should include sidewalks when in the priority areas below. Design exceptions because of right-of-way, constraints, or very low current and potential demand should be made only with Transportation and Parking Commission approval.

B. Specific design criteria that should typically accompany complete streets in Northampton include the following. These should be added when those streets are reconstructed:

- (1) Cement concrete sidewalks on both sides of streets in the all business, industrial, mixed use, and urban residential zoning districts when right-of-way width allows. Cement or bituminous concrete sidewalks in other districts within one mile of Florence Center, Northampton central business district, all K-12 schools, wherever a sidewalk would reduce the need for public school bus service, along any new street, and in dense walkable neighborhoods, and in areas with clear pedestrian desire lines that will result in significant sidewalk utilization. Sidewalks are not expected in the most rural areas of the city although gravel sidepaths and other trails may still be appropriate.
- (2) Intersection improvements should ensure the safety of pedestrians and cyclists, minimize the loss of green space and tree canopy, decrease stormwater runoff, and avoid detrimental impacts on neighborhoods and adjoining streets.
- (3) Lane width should be 10 feet to 11 feet wide.
- (4) Curb radius at intersections shall be as small as possible to slow traffic speed and shorten crosswalk crossing distances, with large trucks (WB-69 trucks) accommodated only when supported by truck traffic counts that demand a wider radius.
- (5) To minimize pavement and crossing distances, turn lanes should be provided only when critically needed and curb extensions should be installed whenever feasible at crosswalks and intersections.
- (6) New subdivisions and roads should utilize short block lengths.
- (7) Roundabouts, which are the favored intersection treatment except in the center of Florence and downtown, should be used instead of signals whenever possible. Roundabouts and mini-roundabouts should be evaluated during the preliminary engineering analysis for all intersections being considered for significant reconstruction, realignment, signalization, and four-way stops. The Transportation and Parking Commission shall approve any decision to use a signal instead of a roundabout except in downtown and Florence center.
- (8) Audible pedestrian signals at all traffic signals when traffic controllers are upgraded. Where no sidewalks exist, traffic signal equipment should be installed that will allow for future pedestrian signalization.
- (9) Prioritize retrofitting streets to add sidewalks for all streets within one mile of all public schools and downtown Northampton and Florence Center when streets are reconstructed, milled-and-overlaid, or otherwise when sidewalk funding is available.

What skills and experience will you bring to this committee assignment? I have been on the Parks and Recreation Commission for a few years and enjoy working with Ann Marie. I have done extensive volunteering over the last 15 years with various youth sports as well as been President of Northampton Little League from 2010 - 2012. I am currently on the Mike Lage Youth Baseball board and work closely with the various leagues in our city. I think my experiences help serve the Park and Rec very well.
