Director

Seasonal Meter Policy

Seasonal water meters are installed in situations where water and/or sewer service are not required, or not possible, year round.

Seasonal meters will be installed or removed only when the owner of record makes a written request for service to dpwinfo@northamptonma.gov. DPW will not contact property owners to arrange for installation or removal until or unless a request is made in writing.

The quarterly base charge for water and sewer service will be prorated to reflect the city's obligation to serve the premises while the seasonal meter is installed.
